Dr Shobha Vijender further argued that Sampurna always keep community feast on girl's birth, gives self-defense training to girls and women, organizes seminar on crime against women, drawing competition, nukkad natak, women panchayat etc. Hence, it was decided that on 25th December, 2019 Sampurna would keep a massive drawing competition on Girl child. 05TH FEBRUARY, 2020 ASSOCIATE MEMBERS MEETING

Agenda for the Meeting:

1. To regulate the non-formal education project
2. To redo the compost project.
3. To discuss the encroachment near the center

4. Any other point with the permission of the chair

In the absence of the president, Dr Shobha Vijender, the Senior Vice President Smt Asha Jain chaired the meeting. She welcomed the associate members for their gracious presence with folded hands.

First of all, she raised the issue that more than 100 children are coming in the Non-Formal Education Project. The project is very close to the heart of the founder President but it is being observed that some of the teachers are not taking the attendance of the children regularly and sometimes they teach the children according to their own syllabus.

Hence, Asha Jain requested the Associate Members to take charge of the Project so that the Project could be supervised on the regular basis. The Senior Vice President told the members such a great service is being done by our teachers for the vulnerable section of the society but now we want that somebody from the management should come forward to supervise the project regularly.

The joint secretary, Ms. Tanvi Grover has been assigned the job to redo the Compost Plant. It has been observed that for last few months, the cleanliness of the plant is not being done properly. During the marriage time, people throw the garbage in the plant and due to this there is foul smell all over. So now onwards, the joint secretary would take care of the plant in close association with other members.

Asha Jain further raised the encroachment problem outside the center. According to her, tire puncture man along with a group of people had encroached the entire area. Even when the beneficiaries pass through the main gate, they feel quite unsafe as these people continuously stare at them. This is a serious problem. Asha Jain is

requested by other members to firstly talk to the person and tell them not to sit outside Sampurna. If he doesn't listen, then some Police support would be needed. In the end, tea was served to all.
